

### Sudoku

place a number between 1 and 4 in each empty cell so that every row, every column and every 2x2 box contains all the numbers 1 to 4

2			4
	1	2	
	4	3	
3			1

	1	4	
4			2
1			4
	4	2	

2			4
	1	2	
	4	3	
3			1

4			3
	3	2	
	4	3	
3			2

The first letter of each answer is written next to its clue in alphabetical order. Can you find the words then fit them correctly into the grid? The first letters of all the words have already been filled in.
